ZERICA

Mix&Go!

Let's get the party started!

Mix&Go! is an **innovative** and **intuitive** cocktail machine for cocktails, mocktails and shots. It even dispenses **chilled** still and **sparkling** water when connected to a ZERICA under counter chiller unit.

Mix&Go! is at home absolutely anywhere from the domestic environment to boats, restaurants, hotels, nightclubs and even private events. It's an **invaluable support**; if you don't have a highly skilled bartender you can still mix the perfect cocktail every time. Mix&Go! provides fast, on-demand precision-dosed mixing with pre-programmed recipes taken from the official International Bartenders Association (IBA) cocktail book. **Perfectly balanced, consistency guaranteed** with zero waste, & no overpour. Just connect your bottles of choice and, based on your ingredients, Mix&Go! will display your personalised cocktail menu. Onscreen instructions & videos let you know what to do or manually add for the **perfect result**.

With plumbed in water as an add-on, you're doing your bit for the environment too. Having refreshing pure filtered water at your fingertips eliminates the need to buy, transport, store, and recycle plastic bottles. That's one less thing to think about plus you're helping achieve a more sustainable future. **#BETHECHANGE**

Compact, light-weight, portable, easy to use, fast and flexible, **Mix&Go!** is the answer to so many of your problems.

Join ZERICA in encouraging responsible drinking as well as environmentally friendly, good hydration practices.

Enabling technologies & key benefits

Discover what we have in store for you...

Touch control

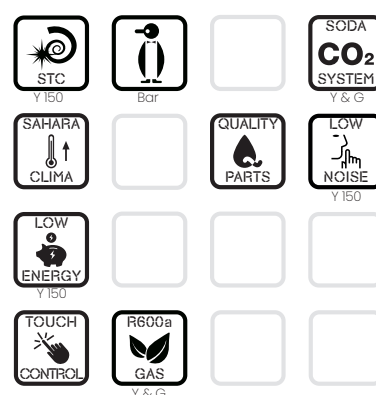

Use the latest generation LCD touchscreen with full colour display to explore the smart functionality. An intuitive and engaging system 100% designed and developed in-house by ZERICA.

Quality Parts

All parts are fully traceable, appropriately certified and of high quality to ensure durability and longevity. This includes components that come into contact with water: hygiene assured.

Low Energy

Our studies have shown that the system is incredibly efficient with very low energy consumption making it a good environmental choice too.

ZERICA: Exploring the software functionality of the Mix&Go!

Mix&Go!

Product focus

- 1 Multifunctional 10" touchscreen
 - Over 70 pre-programmed recipes
 - Add your own recipes
 - Dispense cocktails and shots
- 2 Dispense chilled and sparkling water†
- 3 Removable stainless steel front panel
- 4 PMMA (Polymethylmethacrylate) base

†When connected to a chiller unit

Mix&Go! Élite

Technical specifications

| | |
|---------------------------------------|-----------------------------------------------------|
| External cabinet | Plastic coated galvanized steel |
| Dispensing technology | 10" touchscreen |
| Nozzles | 1 |
| Dispensing area height | 260 mm |
| Accessories supplied as standard | Magnetic stainless steel panel – schuko power cable |
| Warning system | ✓ |
| Multifunctional screen | ✓ |
| Volume control | ✓ |
| Input lines | 8 + 2 |
| Inlets (push-fit) | 1/4" F |
| Energy consumption | 1.5 A 50 W |
| Power supply voltage | 230 V 50 Hz |
| Energy saving | ✓ |
| Unit weight Shipping weight | 6 kg 7 kg |
| Dimensions (cm) – W x D x H | 33 x 37 x 52 |
| Packaging dimensions (cm) – W x D x H | 37 x 36.5 x 60 |
| Units per pallet | 12 |
